

Our Mission

The Bentkover Facial Plastic Surgery and Laser Center was founded on the premise that technical skill, experience, art, innovation, the ability to listen, and compassion are the most important elements of plastic surgery. We are a team of dedicated professionals who work hard each day to perfect this philosophy.

Kim van Gerven, BA

Aesthetician and Make-up Artist

After a successful fifteen year career in sales, marketing, and management, Kim decided to make a change that would allow her more family time. She became certified and licensed in aesthetics and make-up artistry from the Elizabeth Grady School of Aesthetics in 1997. This led to servicing a large clientele at a day spa and then to the position of regional trainer and educator for several skin care, make-up, and hair removal systems. Kim has been working at Bentkover Facial Plastic Surgery and Laser Center since 2007.

Beauty & Wellness Service Options

DEEP CLEANSING FACIAL \$95
This classic facial is designed to deeply cleanse and rejuvenate the skin with the extraction of impurities, massage and a customized finishing mask.

CHEMICAL PEEL TREATMENTS CAN BE CUSTOMIZED TO BE INCORPORATED WITH A FACIAL. PRICED UPON REQUEST.

ILLUMINIZE PEEL \$125
SERIES OF 3 TREATMENTS \$300

This non-invasive very superficial peel combines a new generation of alpha hydroxyl acid to maximize skin rejuvenation with low irritation and virtually no recovery time. Give your skin a radiant glow for that special occasion.

VITALIZE PEEL \$150
SERIES OF 3 TREATMENTS \$375

Treat mild to moderate skin conditions such as fine lines, wrinkles and sun damage with a unique blend of alpha hydroxyl acids, beta hydroxyl acids, resorcinol and retinoic acid. This treatment creates mild to moderate peeling lasting for 2-3 days with significant results after just three treatments!

REJUVENIZE PEEL \$175
SERIES OF 3 TREATMENTS \$450

For more moderate to severe skin conditions, penetrating into the deeper layers of the epidermis to produce the most exfoliation, this combination of alpha hydroxyl acids, beta hydroxyl acids, resorcinol and retinoic acid will produce moderate peeling for 2-5 days. Significant results can be achieved after just three treatments!

LACTIC ACID TREATMENT \$95
SERIES OF 5 TREATMENTS \$395

Available in 30%, 50% and 70%, these treatments are excellent for all skin types in need of exfoliation while addressing fine lines and hyperpigmentation. Optimal results are achieved through a series of five biweekly treatments, with each treatment leaving the skin hydrated and smooth with a healthy glow.

EYEBROW SHAPING \$20

Your brows can be designed to create a beautiful finished look using gentle soy based wax. The use of any Retin A should be eliminated from your skin care regime one week prior to your service.
